## EARTH SURVIVES RIP THROUGH COMET TAIL.

No Better; No Worse, and So Far But Very Little Wiser.

Sun Spots Observed Yesterday by Western Astronomers More Interesting Than the Comet Observations. Yerkes Observatory Obtains Some Wonderful Photographs Secured Under Best Possible Conditions.

(ASSOCIATED PRESS NIGHT REPORT.)

CHICAGO, May 18.—The comet came, the comet went, and this old earth is no worse and no better, and thus far very little wiser. There was no collision, as the superstitious and the ignorant feared; and now that the comet is headed away from us, there will be no recurrence of the manifestations of terror that were recorded from all parts of the world. The earth did pass through the tail of the comet, but nobody suffered from the deadly cyanogen gas! To the naked eye the tail of the comet was indeed "the veriest approach to nothing set in the midst of naught."

**SUN SPOTS OBSERVED.**  
In fact, the phenomena of the day-light hours of yesterday were far more interesting. During the afternoon sun spots were observed in varying numbers about the same hour from five western observatories, but the astronomers who recorded them were almost unanimous in the belief that these disturbances of the solar atmosphere had nothing to do with the approach of the comet and were merely coincidental.  
Thirty sun spots were seen from St. Louis, of which the largest was estimated to be 150,000 miles across; two from San José, Cal., with thirteen surrounding pores, or smaller spots; three "considerably accentuated" spots from this city; three connected spots from Vallejo, Cal., and two from Portland, Or.  
None of the eastern observatories had anything of note to report either during the day or the night. Here and at Williams Bay, Wis., where is the great Yerkes telescope, the conditions for observations seemed the best, and the astronomers were confident the negative as well as the positive results of their examination would be of lasting scientific value.

**INTERESTING POINTS.**  
The whole performance took a little more than five hours. Observers differed as to the exact time at which the earth began to pass through the comet's tail, but the opinion averages a moment between 10 and 11 o'clock tonight, eastern time.  
The combined speed of the tail and the earth was estimated at slightly more than forty-six miles a second, and the breadth of the tail at about 1,000,000 miles.  
Friday the comet will become visible again, headed straight up with the tail sticking straight out of the western sky, a little above the spot where the sun sinks. There will then be no light from the rising sun to dim the glory of the spectacle, and it is likely to be far more majestic than in the stages of the approach.  
At the end of a month, good-bye for another seventy-five years.

### SCIENTISTS SECURE VALUABLE PHOTOS.

**YERKES OBSERVATORY, WILKES BAY (Wash.)** May 18.—As the world passed through the tail of Halley's comet, astronomers at the Yerkes Observatory tonight secured photographs and accurate records of meteoric phenomena and varying heavenly illumination under atmospheric conditions nearly perfect for work with cameras and telescopes.  
Prof. Frost, in charge of the observatory, and Prof. Mitchell of New York, do not connect the phenomena directly with the comet.

## GLADYS IS SUED FOR STEALING AFFECTION.

Mrs. Lambertson Woodward Accused by Mrs. Jean J. Mackay Gliddon of Los Angeles With Alienating Husband's Love.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 18.—[Exclusive Dispatch.] J. Mackay Gliddon of Los Angeles, in a suit which has brought in the United States court against Gladys L. Lambertson Woodward, seeks \$50,000 damages for the alienation of the affections of her husband, De Putron Gliddon. She states that on July 23, 1908, with the consent of her husband, she went to Mount Carroll, Ill., to visit her mother, who was ill, and during her absence, her husband had occasion to make a trip to Monterey, Cal., and there stopped at the Del Monte Hotel. According to the complaint, Mr. Gliddon, early in October, met the defendant, who was living at the hotel, and she induced him to leave the plaintiff and travel with her to the Far East and to Europe. Mrs. Gliddon states that her husband has refused to return to her.  
The complaint, in addition, stated

CINCINNATI (O.) May 18.—[Exclusive Dispatch.] When the General Federation of Women's Clubs of the United States met here this afternoon in a telegram to the State Department he says the delegation that there are disquieting anti-foreign and anti-dynastic rumors to hold a warship in readiness to proceed to Nanking in case of necessity.  
The minister has telegraphed Rear-Admiral Hubbard, now in Chinese waters, to hold a warship in readiness to proceed to Nanking in case of necessity.

**HOUSE REGULARS ARE JUBILANT.**  
**OHIO PRIMARIES RESULTS GIVE ENCOURAGEMENT.**  
Democrats Seem Complacent and the Insurgent Republicans Appear Discouraged—Some Forecasts Assert Cannon Will Be the Power of the Next House.  
[WASHINGTON, May 18.—[Exclusive Dispatch.] The Ohio primaries results were jubilantly received in the House today by the regular Republicans, who predict that the results in the Buckeye State will be a factor in favor of the Republican insurgents, and a strengthening of Speaker Cannon's power.  
They go so far as to predict that the outcome presages a return to regularity that will make Mr. Cannon a power in the organization of the next House. The Democrats view the results complacently. The insurgents are somewhat discouraged, but they are not as strong as they were in the West or even in the East.  
**FIGURES CONFLICT.**  
[COLUMBUS (O.) May 18.—] Almost complete returns from the Seventh Congress District show that Gen. J. Warren Keifer was nominated by about 600 votes. Albert Douglas asserts he won by about 260.  
Congressman W. Aubrey Thomas, now claims he has been renominated by 2400 votes in the Nineteenth District.  
**Flock to Churches.**  
[ASHEVILLE (N. C.) May 18.—] [Exclusive Dispatch.] Scores of the comet, the negroes quit work and flocked to the churches. Many people are camped on the mountains to see the spectacle.

## HUNDRED KILLED.

Dynamite Wrecks Cuban Barracks.

Three Thousand Pounds of Explosive Mysteriously Set Off.

Officers and Men of Rural Guards and Families Buried in Ruins.

Fear of Race Trouble Led to Putting Troops to Watch Material.

(ASSOCIATED PRESS NIGHT REPORT.)

HAVANA, May 18.—Two almost simultaneous explosions of dynamite, supposed to consist of 3000 pounds, completely demolished the Pinar Del Rio this morning. Fully 100 persons were killed, and nearly as many wounded.

Most of the dead are rural guards, but the entire families of several officers of the guards, it is said, were killed, as well as several employees of the public works department and residents of the city, on which fell a deluge of masonry and debris.

It is not known whether the explosion was an accident, or was due to an act of conspirators, but the former hypothesis is considered the more probable.

**RELIEF IS RUSHED.**

Several relief trains carrying surgeons, officers and rural guards, and government officials, started this afternoon from Havana to the scene of the catastrophe, 100 miles away.

Capt. Alfredo Havana, and Capt. Gaspar Betancourt, of the garrison, and their families, are reported to be buried in the ruins.

The barracks was a massive building of Spanish construction and occupied as a casernes in the vicinity of the city. During the late intervention, it was the headquarters of the Eleventh United States Cavalry.

In consequence of the alarm over race disturbances, the government ordered all dynamite in the vicinity in the possession of contractors for road construction and other public work, to be removed to the barracks for safe keeping.

**REMOVING DYNAMITE.**

This afternoon the work of removing the dynamite from the barracks for shipment to Havana was begun by employees of the public works department, assisted by rural guards.

They were loading cases of the dynamite on wagons when the explosions occurred. The central court in which the work was going on, was strewn with dead and wounded.

The work of exhuming the dead and searching for those who still may be alive is going on tonight, but it is greatly retarded by the destruction of the electric light wires and the fear that a quantity of unexploded dynamite may remain in the ruins.

**PANIC.****NEGRO CONVICTS FEAR DR. HYDE.**

THEY LOOK UPON HIM AS A POISON WIZARD.

If He Should Be Sent to Penitentiary and Be Assigned to Hospital They Declare They Will Die in Their Cells Before Risking Death at His Hands.

(BY DIRECT WIRE TO THE TIMES.)

JEFFERSON CITY (Mo.) May 18.—[Exclusive Dispatch.] There is a panic among the 150 negro convicts at the penitentiary, through a fear that Dr. B. Clark Hyde, recently convicted at Kansas City for the murder of Col. Thomas H. Swope, will soon be an inmate of the prison.

They have heard enough about Dr. Hyde to believe that he is a most wonderful man, who can administer poison in such a secretive way as to produce death without causing any suspicion to rest upon himself, and that is quite enough for any negro to know about a man, whom he will dread even worse than death itself.

These convict negroes believe that if Dr. Hyde reached the prison he would be assigned to the hospital and that they are no doubt correct, for doctors who come to the prison are invariably assigned to duty in the hospital.

The negroes believe that Dr. Hyde, as a hospital doctor could easily kill them off with some subtle poison and the world would be none the wiser thereof.

Already they are saying that no matter how sick they may become nothing can induce them to enter the hospital if Dr. Hyde is there. They say they would rather die in their cells unattended than go to the hospital and be killed by a slow poison.

**MURLS DRESS TO CROWD.**

CHICAGO, May 18.—[Exclusive Dispatch.] "The world will end tonight, so prepare to die," Christ Chokeo, a Greek peddler who had stationed himself at Chicago avenue and North Side street, gave this message to passersby today. Here the Greek threw handful after handful of coins into the crowd, saying he wanted to give away his money before the end came.

# Superstitious Driven to Suicide and Crime by Comet.

## SPOTS NOTED ON SOL'S FACE.

Disturbances Likely to Last Several Days.

Earth's Magnetism, It's Said, May Be Affected.

Statement Issued from Mare Island Observatory.

(ASSOCIATED PRESS NIGHT REPORT.)

VALLEJO, May 18.—Prof. T. J. J. See, of the United States Naval Observatory at Mare Island, tonight reported the following observation on the sun spots:

"Great sun spots were noted at 4 p.m. here today. The largest spot was slightly northeast of the sun center, and was made up of three parts roughly joined together by bridging, such as characteristically complicated spots. This seemed to indicate that the disturbance of the sun is destined to last several days.

"It appears to be increasing in magnitude and to be of the vortex, or whirlpool type, which often gives rise to the disturbances to the earth's magnetism.

"The sun spots will reach the sun's central meridian in another day or two, and if any disturbance of the earth's magnetism is to occur from this cause, it is likely to come about Friday.

"The spots now seen are not believed to have any connection with the comet, and if any auroral or electric effects occur tonight, we should probably ascribe them to the comet rather than to the spots on the sun.

"The largest spot observed at Mare Island was estimated to be 60,000 miles long, and 20,000 miles wide."

CURVATURE OF THE TAIL.

Chicago Observers Have Fine View of Comet's Appendage—Some Speculations Are Made.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, May 18.—A splendid sight of the tail of the comet was enjoyed here from 1 to 3:30 o'clock this morning.

"The comet's head was not above the horizon until just before the sun rose, but the tail presented an exceedingly bright picture," declared Prof. E. H. Barnard of the Yerkes observatory. "The short of the tail was from five to six degrees, while its length was 15 degrees. It was brighter than any portion of the Milky Way. It was slightly convex at the north and slightly more brilliant at the middle. The edges were well defined and throughout there were no condensations or irregularities.

Although the tail looked longer owing to the fact that it is nearer, it is much shorter than it was Sunday—less than 20,000,000 miles, probably not more than 10,000,000. It will be about 1,000,000 miles wide where we break through it.

"There is now a curve that I believe has not been before. It is out of our plane of vision and therefore we cannot tell much about it. It is not great enough to swing the tail away from us.

Prof. D. J. McHugh described the tail as shaped like a megaphone made of gas with a void space within it.

"We will pass first through one wall," said he; "then through the head and then through the other wall. While this is happening I look for a faint light in the sky."

LEAVE TROUBLED SPOT. COMET CAUSES EXODUS.

(ASSOCIATED PRESS DAY REPORT.)

DULUTH (Minn.), May 18.—A general exodus took place today from Minnesota Point, a long and narrow strip of land containing the home of several thousand people, located between the finger of Lake Superior and St. Louis Bay, reaching between Duluth and Superior, Wis.

Residents of the point district have fled with mingling the reports of the approach of Halley's comet. The more timid declare that the point, situated at the apex of Lake Superior, and not more than a dozen feet above sea level, would easily be submerged should the comet drag a tidal wave up the lake and sweep on into St. Louis Bay.

BUY "CONJUR" BAGS.

NEGROES ON ANXIOUS SEAT. (ASSOCIATED PRESS DAY REPORT.)

ATLANTA (Ga.), May 18.—Dealers in "conjur" bags in the negro section of the city carried on a thriving business today as the result of the scheduled trip of the comet through the tail of Halley's comet tonight. Meetings also were held in the churches today, thousands of negroes refusing to return to work until the passing of the "comet."

The fact that the cloudy weather throughout the South today and tonight will obscure the heavens, is expected to allay the fears of the superstitious.

UNCLE REMUS BRAVE.

QUIETS FEARS OF PEOPLE. (ASSOCIATED PRESS DAY REPORT.)

MONTGOMERY CITY (Mo.), May 18.—Uncle Remus, Montgomery's faithful old colored man, is quieting the fears of his people regarding the appearance of the comet today, with scriptural quotations.

He is confident the end of the world is not coming today, because he says the Bible says that no man, not even the angels in heaven, shall know of this final event. That it shall come as a thief in the night and the people shall not be forewarned as they are regarding the coming of Halley's comet.

Uncle Remus is an old Baptist and is not fearing anything unusual today, not even the falling of the stars, as in 1823.

CHILDREN SCARED.

STAY HOME FROM SCHOOL. (ASSOCIATED PRESS DAY REPORT.)

CHICAGO, May 18.—In districts of Chicago populated by foreigners, school children by the hundreds asked permission of their teachers to remain at home today for fear of some untoward happening for which Halley's comet may be responsible.

Farmers' Precautions.

NENKAI (Wis.) May 18.—Fearful that the comet might attract dangerous substances that might accompany the comet today, many farmers in this vicinity removed the lightning rods from their homes and barns and took other extra precautions.

## COMET FACTS, FIGURES AND HISTORICAL COINCIDENCES.

A. D. 1682—Edward Halley, British astronomer, identified it with two comets previously thought to have been different ones, and predicted its return in seventy-five to seventy-nine years.

Measurement of the head (not positive), 9000 miles in diameter; length of the tail, from 15,000,000 to 20,000,000 miles, according to the comet's distance from the sun.

Speed, at its fastest when nearer the sun, from 25 to 40 miles a second. Speed of the earth through space, 18 miles a second.

Orbit, a great ellipse, measuring 3,300,000,000 miles in its long diameter. More than one-half its period of seventy-five years is consumed outside the orbit of Neptune, because the speed of the comet decreases vastly the farther it gets away from the sun.

A. D. 837—Louis I, Emperor of France and Germany, panic-stricken by its appearance. The Emperor, to placate the deity, founded many convents and built several churches.

A. D. 1066—Appeared during the Norman invasion of England. Was regarded by the Saxons as a disastrous sign, and as the signal of victory by the Normans.

A. D. 1456—Appeared at the time of the Turkish invasion of Europe. It was at this appearance that Pope Callistus III ordered prayers said in the churches for the downfall of the Turks.

A. D. 60—Appeared during the war which ended in the destruction of Jerusalem.

A. D. 373—Accompanied the invasion of Italy by the Huns.

A. D. 461—Attila's invasion of Gaul and Italy.

A. D. 530—Saxon invaders founded a kingdom in England.

A. D. 1607—The English colonized America.

A. D. 1759—French power in Canada overthrown by the fall of Quebec.

COMET-CRAZED.

TRY TO SLAY GIRL TO SAVE WORLD.

RELIGIOUS FANATICS WOULD AVERT DESTRUCTION.

Sheriff Rescues Intended Sacrifice as High Priest of "Select Fellows" Stands, Knife in Hand, to Complete "Blood Atonement"—Forty Are Arrested.

(BY DIRECT WIRE TO THE TIMES.)

ALINE (Okla.), May 18.—[Exclusive Dispatch.] Miss Jane Wardell, 16 years old, was today rescued from a band of religious fanatics twenty-five miles southwest of this place. She was about to be offered up as a sacrifice to make a blood atonement that the sins of the world might be forgiven.

The Sheriff of Dewey county had been informed that the band of religious fanatics known as the Select Followers had given out that their leader, Henry Helman, had received a revelation from God that the world was about to end today and that the heavens would be rolled up like a scroll following contact with the tail of the comet, and that the only way that would avert the disaster was a blood sacrifice; that in order to save the world a sacrifice had been planned and the lot had fallen to Jane Wardell.

Sheriff Hughes with a posse of six men reached the place in the morning. The girl was found in a room, being prepared, and only in time to rescue her. The Wardell girl, who is a native of this place, was being held in a room, and only in time to rescue her. The Wardell girl, who is a native of this place, was being held in a room, and only in time to rescue her.

Sheriff Hughes placed the girl in the hands of safe parties today and Helman will be held to await the action of investigating officers.

The sect came here two years ago, led by Helman, who is said to be from Leesburg, O., and a graduate of some Ohio university. At one time he was a disciple of Harmon, the Free Thinker.

FEARS CHANGE TO JOY.

Superstitious Mexicans, Assembled to Pray, Turn Meeting into "Fiesta."

(ASSOCIATED PRESS NIGHT REPORT.)

EL PASO (Texas), May 18.—Hundreds of Mexicans from the villages along the Mexican border gathered about crosses erected on the hills tonight, awaiting the appearance of the comet they believe is hurrying to destroy the world.

For ten days the superstitious Mexicans have sought to avert the impending catastrophe with music, incantations and weird ceremonies and many have spent day and night in prayer.

Hundreds have sought refuge in caves and cañons in the mountains. As the hour passed without catastrophe, gloom gave way to joy and dancing and feasting replaced the religious ceremonies.

The Indians also shared the great fear of the Mexicans.

BALLOON OBSERVATIONS.

AERONAUTS ASSIST SCIENTISTS. (ASSOCIATED PRESS DAY REPORT.)

NEW YORK, May 18.—Two New York aeronauts, Clifford Harmon and Leo Stevens, have volunteered to lend a helping hand to scientists in making a closer study of Halley's comet.

Mr. Harmon will make ascensions from Pittsfield, Mass., next week in his balloon, the New York, and he has asked the astronomical departments of Yale, Harvard, Princeton, Pennsylvania, Cornell, Columbia, Virginia and Michigan Universities to send representatives.

IMPETUS TO SALVATION.

Negroes Hasten to Prepare Their Souls for Catastrophe. Churches Crowded.

(ASSOCIATED PRESS NIGHT REPORT.)

STANFORD (Ky.), May 18.—Scores of negroes professed salvation at all-night services held in their churches here last night to prepare themselves for whatever may happen when the earth passes through the comet's tail today. Fields are practically denuded of farm hands, for negroes have refused to work and are fleeing to town.

COMET CAUSES SUICIDE.

DREADED THE WORLD'S END. (ASSOCIATED PRESS NIGHT REPORT.)

ALBUQUERQUE, N. M., May 18.—Telling his neighbors that he believed the comet would destroy the earth tonight, and that he did not want to see the spectacle, Augustine Parais, a wealthy ranchman, committed suicide today by drinking poison.

sentatives to accompany him and take observations from lofty altitudes.

The ascensions will be made at night, and an effort will be made to attain an altitude of three miles.

Mr. Stevens has his balloon, the City of Cleveland, at North Adams, Mass., and will make ascensions with Prof. David Todd, a well-known astronomer.

The two will ascend to the highest possible altitude, taking full equipment of astronomical instruments and photographic apparatus.

CAUSES UNSPOTS TO WAX AND WANE.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN JOSE, May 18.—Prof. Jerome S. Rickard, of the observatory of Santa Clara College, tonight issued the following statement:

"After two months of rest, the solar surface is showing a recrudescence of activity, well worthy of a maximum period. On May 18, at 1 p.m., there could be seen a large, intensely blue-colored spot, convulsively moving toward the eastward, in shape nearly like a half-moon.

"As a master spot, it had a retinue of fourteen little ones, or pores, following in the rear. The eastern side of the spot was marked by a series of smaller spots, and a group of one tailer and bigger than the rest. It was about twelve hours east of the solar axis, and was moving toward the eastward, in shape nearly like a half-moon.

"The largest black spot measured 224,124,773 miles. The smaller group measured 1,234,567 miles. The larger group was first seen on May 15 on eastern limb as a family of seven, then of nine, and finally on May 17, finally of fifteen on May 18.

"Why this sudden change on the solar surface, the cause of which has been held, and it well might be demonstrated—that the rise and the fall of the sunspots and faculae is due to planetary influences. The greatest of the world's long-range forecasters is going by the planet's positions. I go by the sunspots and faculae. Our days are always agreed.

"Therefore, planets and sunspots are indissolubly connected.

"The observed length of the comet's tail is about 15 degrees, or 15 times the diameter of the sun. The tail is about 15 degrees long, or 15 times the diameter of the sun. The tail is about 15 degrees long, or 15 times the diameter of the sun.

"Two slight and short seismic manifestations at 4:25 p.m. were recorded on the two instruments here."

COMET'S TAIL NOT SO LONG AS CALCULATED.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN JOSE, May 18.—Director Campbell of Lick Observatory this evening issued the following statement:

"The tail of Halley's comet was observed Wednesday morning at the Lick Observatory to a length of 12 degrees. It extended through the constellation Aquila to the edge of the Milky Way. The Milky Way at this point is 15 degrees long, or 15 times the diameter of the sun. The tail is about 15 degrees long, or 15 times the diameter of the sun.

"The observed length of the comet's tail is about 15 degrees, or 15 times the diameter of the sun. The tail is about 15 degrees long, or 15 times the diameter of the sun. The tail is about 15 degrees long, or 15 times the diameter of the sun.

"Up to 8:30 p.m. Pacific time, Wednesday evening, no trace of the comet's tail or related phenomena have been visible. It is probable that the earth at that hour had not yet entered the tail. Even if it has, the presence of the moon would probably prevent observation of sky illumination due to the tail."

FALLS TWO STORIES.

ONLY SLIGHTLY BRUISED.

(ASSOCIATED PRESS DAY REPORT.)

ANN ARBOR (Mich.), May 18.—Carl Kuntz, a 10-year-old school boy, leaped far out over the edge of the roof of a two-story building early yesterday to see the comet. He saw several meteorites instead, when he hit the ground. He was picked up for dead, but later taken to school suffering with only slight bruises.

OLD EARTH SLIDES THROUGH COMET'S TAIL WITH EASE.

Director Hale, of Carnegie Solar Observatory on Mount Wilson, Issues Official Statement—Unusually Bright Moon Prevents Sighting Any Indication of Comet Dust—All Quiet.

(PLACID.)

M. T. WILSON, May 18.—Dr. George E. Hale, director of the Carnegie Solar Observatory, gave out the following statement tonight:

"At this hour, 10:30 o'clock, the earth, as near as we can calculate, has now passed through the tail of Halley's comet. It is supposed to have entered the tail some time between 4 and 5 o'clock this afternoon.

"The head of the comet passed between the earth and the sun between 7:45 and 8:25 o'clock. We have carefully watched the comet for any electrical disturbances this evening, but as predicted, have seen nothing out of the ordinary.

"There has been no meteoric display or bright glow to show the presence of the comet's tail. The moon was exceedingly bright, so much so that we could not have seen any faint indications, if there were any. Dr. Babcock carefully watched the electrometer for any electrical disturbances. While there were some slight changes, there was nothing out of the ordinary, and nothing but what can be accounted for in other ways.

"There may be a slight glow in the eastern heavens early tomorrow morning after the moon sets. The comet will probably be visible tomorrow evening, and for several evenings, just after sunset."

GELATINE PLATES AS TRAPS.

MT. WILSON OBSERVATORY, May 18.—Delicate gelatine plates were placed on Mt. Wilson this evening to catch any unusual or meteoric dust which might fall from the comet's tail, but the plates only caught particles of the mountain sand. These plates were disposed on the mountain at the request of the United States Geological Survey, but Dr. Hale of the observatory, stated tonight that they carry any dust or particles of solids ever reach the earth from the comet, they will not fall for several days or possibly weeks.

The plates, however, were carefully watched by the electrometer, but it is important to gain every atom of information concerning this wandering Jew of the heavens.

There was thought that possibly there might be some electrical disturbance in the atmosphere, but the very delicate electrometer used on Mt. Wilson was unable to record such which could be traced to the comet. There was a detection marked by the electrometer, but it no doubt was due to the high wind, or the large spot now present on the sun.

West of Halley's comet is now streaming away from the sun in the western heaven. It has come and it is going away for another seventy-three years. This was a day of excitement, and this evening there were more star-gazers than ever before in the history of the world. But in Southern California, where we saw more than a beautiful clear sky with moonshine so brilliant that the stars paled before her splendor.

The great head of the comet in its mad rush through space, got between the earth and the sun, but it was not until the sun had set that the comet was seen. MONTGOMERY CITY (Mo.), May 18.—[Exclusive Dispatch.] "Uncle Remus," Montgomery's faithful colored man, is quieting the fears of his people regarding the appearance of the comet today, with scriptural quotations.

He is confident the end of the world is not coming today, because he says the Bible says that no man, not even the angels in heaven, shall know of this final event. That it shall come as a thief in the night and the people shall not be forewarned as they are regarding the coming of Halley's comet.

Uncle Remus is an old Baptist and is not fearing anything unusual today, not even the falling of the stars, as in 1823.

CHICAGO, May 18.—In districts of Chicago populated by foreigners, school children by the hundreds asked permission of their teachers to remain at home today for fear of some untoward happening for which Halley's comet may be responsible.

COMET FACTS, FIGURES AND HISTORICAL COINCIDENCES.

A. D. 1682—Edward Halley, British astronomer, identified it with two comets previously thought to have been different ones, and predicted its return in seventy-five to seventy-nine years.

Measurement of the head (not positive), 9000 miles in diameter; length of the tail, from 15,000,000 to 20,000,000 miles, according to the comet's distance from the sun.

Speed, at its fastest when nearer the sun, from 25 to 40 miles a second. Speed of the earth through space, 18 miles a second.

Orbit, a great ellipse, measuring 3,300,000,000 miles in its long diameter. More than one-half its period of seventy-five years is consumed outside the orbit of Neptune, because the speed of the comet decreases vastly the farther it gets away from the sun.

A. D. 837—Louis I, Emperor of France and Germany, panic-stricken by its appearance. The Emperor, to placate the deity, founded many convents and built several churches.

A. D. 1066—Appeared during the Norman invasion of England. Was regarded by the Saxons as a disastrous sign, and as the signal of victory by the Normans.

A. D. 1456—Appeared at the time of the Turkish invasion of Europe. It was at this appearance that Pope Callistus III ordered prayers said in the churches for the downfall of the Turks.

A. D. 60—Appeared during the war which ended in the destruction of Jerusalem.

LEADERS DROP.  
HAPS BEATEN  
BY BUNGLES.Third Inning Proves Costly  
for Vernon Team.Wild Pitch, Passed Ball and  
Two Errors Fatal.Daley Makes Great Catch on  
Center Field Fence.

Los Angeles, 3; Vernon, 1.  
Such pitching as Tozer served up yesterday could not be beaten, and the Vernon team had to satisfy themselves with a defeat. The only man they could get to third was Carlisle, who scored in the sixth inning.

Aside from the good pitching of both Tozer and Schaffer, the big thing of the day was a fine left-handed catch by Daley in center field of Roy Brashers' fly in the eighth inning. As soon as the ball was hit Peteran back and then turned and backed up against the fence, and jumping up, managed to grab the ball off the fence. The poke should have been an easy two-bagger and Pete got the big hand for his catch.

There was little else to enthrall the good-sized crowd of fans, for the good reaving seemed to keep down the chances for spectacular stunts, and Daley's catch was only a wild chance that ordinarily would have been a two-bagger. When a man gets that kind he is doing fine business, but when he misses such a home run as fans roar for having a solid ivory head, no throw by Delmas from deep short to first base was well worthy of notice, while the Vernon infield shone with two neat double plays.

Had Hogan had a bad day of it, having a passed ball and a wild throw to second; but as there were some other errors mixed in with his in the third inning, Schaffer could not hope to win. Williams' error on Roy Brashers' sacrifice and Stoval's hit through the infield.

For the Angels, Graham walked in the third, went to second on a passed ball, to third on Tozer's sacrifice which Schaffer juggled and scored. Daley's double, Tozer reached third on this and scored when Coy muffed Brashers' fly to right.

Murphy walked and stole second, ran to third on Hogan's wild throw, and scored on Delmas's sacrifice fly to right.

In the sixth the fans saw the peculiar circumstance of a man making a base hit without being able to advance a runner, and it was a clean base hit at that. Dillon was on second from an error and a sacrifice, and he hit a hot grounder past Schaffer. The ball hit the umpire and bounced up under his chest protector for a base hit. Dillon ran to third on this, but was sent back.

Howard was back in the game after an absence of several days, and played his usual consistent game. The score: LOS ANGELES.

NOTES OF THE GAME.

The fans came out strong for the Angels to win and the enthusiasm was noticeable after the support that has been given the Vernons in previous games. Now that the Vernons are in the lead the company will have to switch their system.

Kit Brashers had eight chances and accepted seven in a creditable manner but wobbled on one, which was a hard chance.

Roth got two nice singles but could not hit them so they would count for runs.

Daley was not satisfied with his double to left in the third inning but tried to stretch it into a triple and was thrown out at third.

Hogan had Hensling warmed up several times but did not put him in the box for it is poor business to take out a man who is pitching a five-hit game.

In the third for the locals there was a pass, wild pitch, passed ball, two errors, a sacrifice and a double and if this combination is not good enough for two runs nothing will make them but two home runs.

The locals played an errorless game and handled every chance without a mistake.

HARD KNOCK FOR GIANTS.

WHITE PLAINS (N. Y.) May 18.—It is worth \$500 to be compelled to remain unwillingly in the Polo grounds to see the New York Nationals play ball, according to a verdict returned in the Supreme Court here.

Frederick L. Talcott, Jr., of New York received judgment in this case against the company which controls the grounds. Talcott alleged he was held by officers when he tried to leave the grounds, and his failure to obtain reserved seats, his detention for two hours as false imprisonment and demanded \$5000 damages.

KENT-INGHAM GAME.

TRAP-HAS GOOD LUCK.

PHILADELPHIA, May 18.—Portland defeated Oakland in a ten-inning game at Recreation Park this afternoon, the game being decided by a run by Ryan, who scored on an error by Carroll. The score was 2 to 1.

Oakland achieved the two runs in the first and fourth innings. In the fourth Swander rapped the ball over the fence for a homer. Portland got

one in the fourth and sixth, making it a tie to the tenth.

W. Ryan and Carroll accumulated four errors for Oakland, while Portland made but one bobbie. Score:

# UNCLE SAM TELLS MADRIZ HE MUSTN'T BOMBARD BLUEFIELDS.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, May 18.—Com-  
mander Glimmer of the United  
States gunboat Paducah has  
served notice on Gen. Iria, who is in  
command of the Venus, that he will  
not permit a bombardment of the city  
of Bluefields, Nicaragua, and he has  
also notified Gen. Estrada and Pres-  
ident Madriz that he will not permit  
any armed conflict within the city.  
These notices were sent after Iria  
had given notice of his intention to  
bombard the city should Gen. Estrada  
not surrender in the meantime.  
Gen. Estrada, it is learned, has re-  
fused to comply with the demand for  
surrender.  
Mr. Morfat, Consul at Bluefields, tele-  
graphed yesterday that the Venus,  
with 300 men and mounted guns on  
board, reached Bluefields at 3 p.m. A  
demand for the surrender of the city  
and the customs house at the bluff was  
made through the gunboat Paducah

Large Sums.

Some notable gifts to relatives were  
indicated in the will of Mary B. Pur-  
cell, of this city, who died May 15,  
and which was executed yesterday. The  
estate amounts to \$500,000, and there  
are other items to be accounted for, mak-  
ing the grand total about \$500,000. Of  
this, \$245,000 is in loans secured by  
mortgages; \$24,000 in ready cash, and  
there are real estate holdings in Los  
Angeles. The will was executed June  
15, 1908, and the witnesses were Mary  
V. Smith, No. 1033 South Figueroa  
street; and L. H. Valentine, No. 918  
South Alvarado street. The execu-  
tors are Charles A. Purcell, a brother-  
in-law, of Oak Park, Ill., Michael  
Dowling, N. Y., and Edward C.  
Magauran, of this city.

The first bequest is \$2000 for the  
care of the graves of the deceased.

## TO GO AFTER PRIZE.

NEW YORK, May 18.—Charles K.  
Hamilton will attempt an airplane  
flight from Albany to New York, to  
win the \$10,000 prize offered by a New  
York newspaper, during the week of  
June 6. Hamilton made two brief  
flights at Mineola, L. I., yesterday,  
which he described as the highest wind  
in which an aviator has ever attempt-  
ed to fly.

## CONLEY TO BEGIN MONDAY.

Frankie Conley, bantam champion,  
is to begin training Monday for his  
coming fight with Owen Moran and  
intends to work at Jack Doyle's ver-  
non quarters. Joe Conley, the boy  
manager, says he has a new pug un-  
der his wing named Ralph Parr, a 125  
pounder from San Francisco who is  
willing to meet any boy here at his  
weight for a side bet. Joe also has  
charge of Marty Kane at 125 pounds  
and wants a match for him.

### BUYS GROUNDS FOR FINE HOME.

CHICAGO MAN TAKES PLACE OF  
FIFTY ACRES.

Property Adjoins the Tract Pur-  
chased Last Winter by President  
Hill of the Great Northern Railway.  
Group of Local Investors Gets Quar-  
ter Section for Subdivision.

RELANDS, May 18.—Two of the  
largest real estate deals of the spring  
were closed today by a local firm. John  
F. Legier of Chicago has purchased  
from G. A. Alford and H. Ford a  
tract of fifty acres, without water, in  
the County Club section, paying there-  
for \$10,000. In a separate purchase Mr.  
Legier secured seventeen shares of  
South Mountain Water Company stock.  
The property adjoins the tract pur-  
chased last winter by President Louis  
W. Hill of the Great Northern Rail-  
way and, like President Hill, Mr. Legier  
will lay out his entire tract into a  
handsome park and on one of the  
lateral eminences he will erect a pa-  
latial home to which he will bring his  
family. This is one of the fashionable  
sections of the city and commands an  
unobstructed view of the mountains and  
valleys.

## SAFE, ANYWAY.

Fashionably Dressed Youngster Found  
in Police Station—Mother  
Gets a Shock.

Everett Wendell, 6 years of age,  
went out into the street to play with  
a little neighbor yesterday evening.  
The boy's mother, Mrs. M. J. Wendell,  
was kicking his little plaid suit aim-  
lessly about the street and crying for  
his mamma when a couple of passers-  
by, gathering that he was lost, turned  
him over to a policeman. It was all  
simple enough, so far, but things be-  
gan to happen when the policeman  
Mamma Wendell located her young  
hopeful.

"Is the Police Station?" she  
asked over the telephone. "Oh, so it  
is, is it? Have you my son Everett  
there? Oh, you have him, have you?  
Well, what is he doing? Is he there?"  
It wasn't much to say, but the  
way in which it was said hung  
like a lead on the telephone wires.

Everett, the most fashionably  
dressed "lost kid" ever taken to the  
station, had been turned over to the  
police patrolman, as is the rule. Mrs.  
Wendell, after a short time, she  
would be down right away, founced  
into the station about two hours la-  
ter.

"I want me ched-I did! Why have  
you taken him?" she said between  
clenched teeth.  
"Ma, oh, ma, they put me in jail,"  
whimpered Everett from the inner  
side of the door to the jail office.

"You poor child," cried Mrs. Wen-  
dell, and she tried to get him out of  
the big iron door with her daintily-gloved  
hands. "Come out of this horrid  
place, quick!" she exclaimed as soon  
as the door was opened for her, and  
Everett did not touch the floor twice  
after his expensively-gowned mother  
had got a fair grip on his wrist.

## OWENS RIVER CELEBRATION.

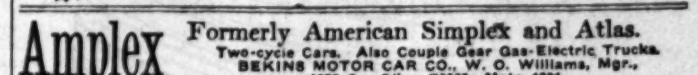

The Executive Committee of the  
Chamber of Commerce will at once  
take up the plan to celebrate the com-  
pletion of the Owens River water pro-  
ject. Though the aqueduct will not be  
finished for some time, the chamber  
believes the celebration should be ar-  
ranged long in advance. The committee  
will welcome suggestions from persons  
interested in the idea. It will meet  
from time to time and report progress  
to the board of directors.

## CHURCH A CANDIDATE.

FRESNO, May 18.—Judge George E.  
Church of the Superior Court of this  
county, who is at present in Santa  
Cruz, yesterday sent word to friends  
in this city that he has decided to be-  
come a candidate on the Democratic  
ticket of the Appellate Court, First  
District. Judge Church is serving his  
second term on the Superior bench.

# My Corns Don't Hurt a Bit.

Tired, Ailing, Swollen, Smelly,  
Sweaty Feet, Corns, Callouses,  
Bunions, TIZ Cures  
Right Off.

Say good-bye to your corns the very  
first time you use TIZ. You will never  
know you have a corn, bunion or cal-  
lous, or sweat, tired, swollen, aching  
feet any more. It's just wonderful the  
way the pain vanishes. Rub the corn-  
hammer it with your foot if you wish  
—no more pain after TIZ than if there  
had never been a blemish on your feet.  
Doesn't that sound good to you?  
Just use TIZ. It's not like anything  
else for the purpose you ever heard of.  
It's the only foot remedy ever made  
which acts on the principal of draw-  
ing out all the poisonous exudations  
which cause sore feet. Powders and  
other remedies merely plug up the pores.  
TIZ cleans them out and keeps them  
clean. It works right off. You will  
feel better the very first time it's used.  
Use it a week and you can forget you  
ever had sore feet. There is nothing so  
sure that can compare with it. TIZ  
is for sale at all druggists, 25 cents per  
box. Write for a free trial box to

## KNIGHTS LIGHT SMOKE POTS.

Washington Orchardist Saves Fruit  
from Frost With Help of Mem-  
bers of His Lodge.

[BY DIRECT WIRE TO THE TIMES.]  
TACOMA (Wash.) May 18.—[Exclu-  
sive Dispatch.] Several nights recent-  
ly the Yakima Valley was visited by  
heavy frosts. Many orchardists, in  
anticipation of such an event, had pre-  
pared by scattering systematically  
fire pots all through the fruit orchards  
that were likely to be injured.

When the weather threatened to be  
frosty the security of many of them  
handle them was a serious question and  
Mr. Bradford, who is a member of  
the Knights of Pythias and a pros-  
perous, put the matter up to the Knights,  
and thirty of his fellow lodge mem-  
bers volunteered to assist him when  
needed.

For three nights in succession auto-  
mobiles loaded with ready workers  
went to the Bradford ranch and  
helped light the pots and keep them  
going all night, with the result that  
this orchardist saved a bumper crop.  
T. D. Bradford, owner of a forty-  
acre peach, apple, pear and apricot  
orchard near Prosser, had fifteen hun-  
dred smoke pots imported from Cal-  
ifornia.

## CHICKEN-PECKED HUSBAND.

Former Angeleno Complains Wife's  
Children Made His Life  
Miserable.

[BY DIRECT WIRE TO THE TIMES.]  
RENO (Nev.) May 18.—[Exclu-  
sive Dispatch.] Alleging that his wife and  
her children treated him so cruelly  
that the neighbors talked about it and  
referred to him as "Easy Mark," and  
called him a "susp" in his own house,  
Frederick J. Esler, formerly of Los  
Angeles, today filed a suit for di-  
vorce against Camille Esler.

He alleged that when 23 years of  
age, in December, 1888, he married  
Camille Esler, who is eleven years his  
senior. He further alleges that his  
wife had two children by a prior mar-  
riage and that in a short time these  
children began to annoy him and abuse  
him and were encouraged in doing so  
by their mother.

This, he alleged, resulted in the  
neighbor's references and in his health  
alleges desertion at San Bernardino,  
May 15, 1907.

Redlands.

[BY DIRECT WIRE TO THE TIMES.]  
REDLANDS, May 18.—[Exclu-  
sive Dispatch.] Frank Warner, 55 years old,  
was run over here tonight by a South-  
ern Pacific train. He died of his in-  
juries two hours later. Warner was  
standing near the track when a freight  
train was passing, and was struck by  
the open door of a refrigerator car and  
knocked under the wheels.

## SCORCHED WIDOWER LIES TONGUE-TIED.

**Wife's Death by Fire May Be In-  
vestigated in Court Today—Horror  
Mystery One of Strangest Cases in  
Legal History.**

ONE of the most extraordinary mur-  
der cases in California's history  
will come to a preliminary exami-  
nation this morning in the Township  
Court in Santa Ana, when Frank J.  
Skelly faces the appalling charge  
of having burned his young wife to death.

It is charged that he committed the  
murder in the most deliberate way. If  
the theory of the prosecution is borne  
out, he poured out a can of gasoline  
and waited patiently and calmly for his  
wife to appear; then held her, pinned  
back against a closet wall, while he  
saturated her clothing and touched a  
match.

The case has all the fascination that  
mystery can give it. If he succeeds in  
unraveling certain features of this al-  
leged, horror, the District Attorney of  
Orange county will achieve a legal tri-  
umph.

Both sides claim to be ready to pro-  
duce important new evidence that has  
developed since the inquest.

The facts and the personalities to be  
introduced at the hearing, are sub-  
stantially as follows:

Skelly, the accused man, was a small  
lumber merchant and building con-  
tractor in the town of Westminster,  
about nine miles from Santa Ana. He is  
a common type in small villages—the  
respectable citizen. He was treasurer  
of the Odd Fellows, church member,  
committeeman on Fourth of July, etc.

In person, Skelly is a slow, patient,  
quiet, shy-looking man of 46. He  
has been married twice. The woman  
just dead of her burns, was married  
to him eight years ago and had two  
children.

They lived in a small house and had  
a boarder John Gans, a book-keeper,  
in Skelly's lumber yard. He has not  
yet testified.

Early on the morning of May 4, Gans  
was awakened by screams coming from  
the floor below. He says that at first  
he thought it was one of the Skelly  
children being spanked and paid no  
attention. The screams continuing and  
growing in fury, he jumped up and saw  
Mrs. Skelly on the floor, burning like  
a torch, the whole upper part of  
her body in flames.

As Gans watched, Skelly came rushing  
out; some one threw him a blanket  
with which he stifled the flames in his  
wife's clothing.

When she was carried into the house,  
she is alleged to have said:  
"Why did you do it, Frank? Why  
didn't you take a pistol?"

It is common gossip among the  
neighbors that Mrs. Skelly made some  
statement. None have yet testifi-  
ed. Eighteen of them have been sub-  
poenaed to appear today. It will then  
develop whether the dying woman  
actually made such a statement or  
not; or whether this is gossip, grown  
out of the sensational testimony of  
Mrs. Skelly's mother at the Coroner's  
inquest.

**HER WIFE'S SECRET.**  
Mrs. Skelly's mother is Mrs. Laura  
E. Lewis, the wife of a well-to-do re-  
tired farmer of Santa Ana.

She was summoned immediately after  
her daughter was burned and remained  
with her until she died.

For a week, she made no charge  
against her son-in-law; made no com-  
plaint to the officers; did not even tell  
her husband that their daughter was  
the victim of what she claims to have  
been a peculiarly atrocious murder.

Called to the witness stand during  
the Coroner's inquest, she solemnly  
burst out with the statement that her  
daughter was burned to death by  
Skelly.

Her explanation of the affair, as  
she says it was related to her by her  
daughter, was as follows:

Mr. and Mrs. Skelly had quarreled  
the night before. Coming into the  
kitchen to get breakfast, Mrs. Skelly  
found her husband waiting with a gaso-  
line can. Asked what he was doing,  
Skelly replied that he was going to  
murder her. He then dashed the gaso-  
line over her and lit a match.

Mrs. Lewis stated that her daughter  
begged her to keep the fact of the  
murder a secret. This Mrs. Lewis said  
she did, even withholding the fact  
from her husband, until she lost con-  
trol of herself at the inquest.

**EXTRAORDINARY CASE.**  
This is the most extraordinary fea-  
ture of the whole case. Assuming that  
Mrs. Skelly really accused her hus-  
band of having burned her to death,  
this was one of the most astonish-  
ing events in criminal annals; yet the  
little village wherein it happened  
would seem to have regarded it so  
calmly that the inhabitants didn't con-  
sider it worth while to tell any one  
and the mother, to whom the con-  
fidence was made, kept it a secret from  
her own family for a week.

The Lewis family, the highest  
standing in Santa Ana, and there  
seems to be no question but that Mrs.  
Lewis's amazing story was told with  
a sincere belief in its truth.

Being confronted with these facts,  
Skelly made no effort to avoid testifi-  
fying, and his version of his wife's  
death. He said he had been milking  
a cow and came in to put on his vest,  
as the morning was chilly. His wife  
was trying to fill the gasoline stove  
while it was lighted. It flared up and  
set her clothing on fire. He said he  
reached for a dipper of water and  
sought to hold her while he extin-  
guished it. He supposed, he says, that  
she mistook his effort to hold her while  
dashed water over her for hostility,  
and, in her frenzy, got the confused  
idea that he was setting her on fire.

The defense will produce testimony  
showing that the gasoline stove was  
found lighted, flaring up and with the  
can off the lighting tank.

Both the prosecution and defense are  
preparing to assail these two versions.

**DEATHBED STATEMENTS.**  
Admitting that Mrs. Skelly, in the  
first agony of her burns, spoke some  
such words as "Why did you do it,  
Frank?" the defense claims to have  
found important witnesses who will  
tell of her subsequent statements, while  
on her deathbed.

Mrs. Aldrich of Long Beach was  
with Mrs. Skelly just before she died.  
It is claimed that Mrs. Aldrich will  
swear the dying woman spoke tenderly  
of her husband and said their relation-  
ship had always been agreeable and af-  
fecting.

A trained nurse who attended the  
dying woman will be subpoenaed to tell  
how Mrs. Skelly kept saying, over and

### JEWELER IN COURT AGAIN.

This Time He Seeks Money Alleged to  
Have Been Advanced to For-  
mer Salesman.

Albert Fink, who gained much no-  
torecity recently through his alleged loss  
of \$10,000 worth of jewelry in a trunk-  
switching swindling game and his sub-  
sequent arrest under the accusation of  
having been implicated in the theft,  
again appeared in court yesterday.  
He is seeking to recover \$65 from  
Harry Adams, the traveling salesman  
who started north with the trunk,  
which was lost, rifled, and later found  
at San Jose.  
Fink explained to Justice Ling that  
his resources were greatly curtailed by  
the robbery and that he had to cut  
down expenses. He said that he had  
stopped Adams' salary and put him on  
commission. He alleges that the \$65  
was merely advanced to the salesman  
and was not returned before Adams  
quit.  
Adams' defense was that the money  
was paid to him as salary and that he  
was entitled to keep all of it.  
The mystery of the disappearance of  
the Fink gems has not been solved.  
Fink and his wife, who was also  
arrested, were discharged at a pre-  
liminary examination.  
Detectives and police are still  
working for the District Attorney's  
office are still giving the case atten-  
tion.

### HOSPITAL KEEPS CORONER BUSY.

GOOD SAMARITAN INSTITUTION  
FIGURES AGAIN.

Death Certificate on Man Who Dies  
There After Having Been Kept Under  
Anesthetic for Hours Is Re-  
fused by Health Department, and  
Investigation Conducted.

For the second time within a week,  
Coroner Hartwell was called upon yes-  
terday to strain at a report on a  
death at the Good Samaritan Hos-  
pital. An inquest over the remains of  
Mrs. Edward Shoppell, Tuesday after-  
noon, was the first instance. Yester-  
day it was the death of Charles L.  
Williams.

The Williams case shows plainly the  
necessity of an ordinance compelling  
hospitals to file reports of all accident  
cases with the police. Williams was a  
plumber, 50 years of age, and lived at  
No. 654 West Seventh street. Tuesday  
morning he went to Gardena to work  
and while there was terribly injured.  
He undertook to open an old gasoline  
tank with a cold chisel. A spark from  
the chisel shot into the gas-filled res-  
ervoir, causing an explosion which  
tumbled him over the tank and mangled  
his left foot was mangled.

He was brought to Los Angeles and  
at the request of his daughter, Mable  
Williams, was removed to the Good  
Samaritan Hospital and Dr. F. E.  
Young called a consultation at once. When  
he reached the hospital the injured  
man was under an anesthetic and al-  
though in a weakened condition, was  
kept under ether for two hours.

At 1 o'clock the anesthetic was with-  
drawn but the patient did not recover  
consciousness. His left foot had not  
recovered, as was at first sup-  
posed necessary. The man's extremely  
weak condition forbade liberties and  
the injured foot was dressed and at  
more favorable opportunity awaited.  
He sank rapidly and died shortly after  
4 o'clock.

When Dr. Young made out the cer-  
tificate he simply stated that death  
resulted from shock from an accident.  
The health department in view of the  
Shoppell case and the investigation  
found necessary there, refused to ac-  
cept the certificate and recommended  
that the coroner pass upon the case.  
An investigation was conducted and  
the details of the accident were brought  
to light.

Dr. Peter C. H. Pahl, manager of the  
hospital, administered the anesthetic,  
according to the statement of Dr.  
Young.

"Williams was under the influence of  
the anesthetic when I reached the Good  
Samaritan Hospital," said Dr. Young.  
yesterday. "He had been hurried to  
the operating room as soon as he ar-  
rived and Dr. Pahl administered ether.  
I did not know whether the patient  
was strong enough to withstand the  
anesthetic and shock of amputation and did  
not take a chance, but merely encased the  
injured foot in a fracture box and de-  
cided to wait developments. The pa-  
tient, however, was very weak and be-  
gan to sink rapidly, although the an-  
esthetic was withdrawn. He died a  
short time later."

It is stated by health department of-  
ficials that in view of the recent ir-  
regularities in reports, that more com-  
plete and thorough records will have to  
be filed in the future.

### BLOOD, REAL BLOOD.

Spanish Dons in Battle and One's  
Finger Damaged—Warrant  
for Other.

A gory battle, in which good Span-  
ish blood was let into the gutter on  
Broadway near Fifth street, was  
graphically described by Senor Rafael  
M. Gallegos yesterday. Deputy  
Dist. Atty. Keyes, when he applied for  
a complaint against his ancient rival,  
Senor Ricardo Uribe.

His description was so vivid that the  
attorney was interested. His evidence,  
a lacerated finger, was so realistic  
that the prosecutor was convinced that  
a serious offense had been committed.  
Keyes fashioned a complaint charging  
Uribe with threats to kill and with  
having inflicted bodily injury. With  
eagerness, if with difficulty, Gallegos  
signed it. His signature was not an  
symmetrical as usual, for the han-  
daged finger interfered with his pen-  
manship.

Gallegos and Uribe are both instruc-  
tors of their native tongue. Inciden-  
tally, the former is a student of the  
laws of this country. Each says the  
other teaches mere lingo. Each is the  
other's rival in procuring objects of  
instruction.

There may have been some friction  
which has not been disclosed. Before  
they met on Broadway, and there was  
much friction after they met, accord-  
ing to the stories of the witnesses.

Uribe is much larger than the trim  
Gallegos. He is accused of having been  
the aggressor. When Gallegos put up  
his hand he is alleged to have  
grasped one of the trim fingers in his  
teeth. There was a shriek, a clash,  
with arms revolving like the wheel of  
a windmill, and there two Spaniards  
separated and sought opposite direc-  
tions.

At the solitude of his home Gallegos  
nursed his injured feelings and his  
lacerated finger. He hoped that in time  
his anger would cool. But the hours  
only seemed to aggravate the situation  
and he hastened to the District At-  
torney's office.

The complaint was filed in Justice  
Summerfield's court and a deputy con-  
stable dispatched forthwith to go in  
search of the man with the sharp in-  
cisors.

**SUIT TO QUIET TITLE.** An action  
was filed by John Wolfkill in the Su-  
perior Court yesterday against the  
Consolidated Petroleum corporation to  
quiet title to about 600 acres of land  
in the Sherman oil fields west of the  
city. The suit does not involve the  
ownership of the land, but is brought  
for the purpose of terminating an oil  
lease held by the defendant on the  
ground that the latter had not fulfilled  
the terms of the contract.

**DESIRE TO MORTGAGE.** A petition  
was filed in the Superior Court yes-  
terday for permission to mortgage the  
Magnolia-avenue Christian Church in  
the Urnston tract, for \$7500. The re-  
quest is approved by the board of trust-  
ees, consisting of William Gregory, A.  
J. Chapman, T. J. Lockhart and S. C.  
Ebert.

**COMMITTED.** Judge Bordwell yes-  
terday committed Jennie Duplah and  
Pearl Kleinman to the State Hospital  
at Patton. David Kolbert was ad-  
judged insane, but when his wife, Sa-  
die Kolbert, learned that she would  
be compelled to pay for his keep, if  
she was able, she informed the court  
that she would take her husband  
home again, and she did.

### WOMEN JOIN TO PUNISH HUGHES

MAN LOVES TOO OFTEN, BUT NOT  
WELL ENOUGH.

Two Alleged Victims of His Win-  
ning Ways Weep in Courtroom  
While Telling How They Were  
Wood and Won—Prisoner Sits Un-  
concerned and Is Held for Trial.

Two of the three wives Thomas  
Hughes has enumerated himself with  
sat in Justice Chamber's court yester-  
day morning and sobbed, while the  
youthful heartbreaker sat unmoved in  
the prisoner's dock facing preliminary  
examination on a charge of bigamy.

Hughes is not 30 years of age, but  
according to the charges against him  
he has loved too often but not well.  
He is alleged to have entered his  
marrying career some years ago. His  
first wife got a divorce. Wife No. 2,  
so called, entered the bonds in Port-  
land about two years ago and wife  
No. 3 joined the procession in Los An-  
geles several weeks ago. The first  
wife's divorce was regular but the  
man's heading career was halted  
when his second wife heard of his  
third marriage and swore out a war-  
rant charging bigamy.

Hughes is of medium height and  
rather slim build. He is not handsome,  
but on the contrary is rather plain.  
The preliminary examination was  
short yesterday morning. Hughes  
watched his second wife take the  
stand. She was dressed in a white  
waist, light, neat-fitting skirt, big  
white hat with heavy white veil and  
black shoes. She has light golden hair  
and big blue eyes. She hardly looked  
toward her husband and told her story  
as rapidly as possible. She said she  
met Hughes in Portland and they were  
married in a cathedral there, Febru-  
ary 24, 1908. Hughes left her a short  
time later and she heard nothing more  
of him until she read a dispatch from  
Los Angeles telling of his marriage  
here to another woman.

She said that her name was Clara  
Kuper before her marriage and that  
she was 20 years of age at the time of  
the wedding. She became hysterical  
after leaving the stand and her tears  
mingled with those of the wife No.  
2, a Los Angeles girl, who was Cora  
Beck of No. 1620 West Second street.

The Los Angeles woman testified  
that she met Hughes upon his arrival  
in Los Angeles and that he courted  
her for three weeks. They were mar-  
ried on April 16 and the next day  
Hughes left her for a short time.  
Hughes left her for a short time.  
Hughes left her for a short time.

She said that her name was Clara

## Handsome China

Dearest to the Housewife's Heart

Of all her treasures the Housewife and the Bride  
alike probably casts more tender glances on her se-  
lect China than on any of her other favorite pos-  
sessions.

We suggest as most suitable gifts Minton, the most  
renowned English, or Poyat Limoges, the elegant  
French China of which we show such beautiful  
pieces. We carry also other famous English makes.  
The decorations vary enough to suit all fancies.  
Partial Sets or single Plates, Coffee, Teas, Boul-  
ions, etc., will be appreciated as gifts.

SKELLY CASE UP TODAY.

(Continued From First Page.)

rearrange his bandages a hundred  
times while you talk to her.

MOTHER BELIEVES IN HIM.  
"There never was a better boy in the  
world," she says. "He wouldn't throw  
a tin can at a cat. They say he burned  
his wife to death, but you can see  
yourself that he was horribly burned  
himself trying to save her."

"Had he been trying to murder her,  
do you think he would have done it  
while this other man was in the house  
to hear her?"

"We have no fear whatever as to  
the outcome of the murder charge.  
Even my son isn't worried over that.  
It is the disgrace and the financial  
consequences. He realizes that he is  
facing a long, expensive trial that will  
simply wipe him out financially. He  
will have to start out all over again,  
but I tell him he is still comparatively  
young and strong and has time enough  
yet to build up."

The parents of the dead woman have  
evidently been instructed not to dis-  
cuss the case. Their grief over the  
death of their daughter is still so re-  
cent and so keen that the murder  
charge may be said to be a secondary  
matter with them.

The district attorney, under whose  
orders they have placed themselves  
in the interests of the prosecution,  
made a brief statement.

It is BEWILDERING.  
"It is a most extraordinary case,"  
he said. "The more I look into it the  
more curious and bewildering it  
seems. Although I feel sure a great  
crime has been committed, there are  
certain features of the case that I  
cannot explain."

## Pleasant, Refreshing, Beneficial.

Syrup of Figs and Elixir of  
Senna appeals to the cultured  
and the well-informed and the  
healthy because its component  
parts are simple and whole-  
some and because it acts with-  
out disturbing the natural func-  
tions, as it is wholly free from  
every objectionable quality or  
substance. In its production a  
pleasant and refreshing syrup  
of the figs of California is united  
with the laxative and carmin-  
ative properties of certain  
plants known to act most bene-  
ficially, on the human system,  
when its gentle cleansing is de-  
sired. To get its beneficial ef-  
fects, always buy the genuine,  
for sale by all reputable drug-  
gists; one size only, price  
fifty cents a bottle. The name  
of the company—California  
Fig Syrup Co.—is always plain-  
ly printed upon the front of ev-  
ery package of the genuine.

## A Famous Painting FOR TIMES READERS

It is universally conceded that, as an animal painter, Rosa Bonheur was the greatest the world has ever known. So conscientious, so devoted to the real in art, it was her custom when portraying the death struggle of an animal to visit the slaughterhouse and there patiently observe the final twitching of the muscles as life became extinct. The results of her painstaking efforts soon made her a world-renowned figure in this most difficult line.

## HER MASTERPIECE... "The Horse Fair"

In 1853 this wonderful painting was exhibited for the first time and created general astonishment. In order to obtain material for this picture, Mme. Bonheur adopted masculine dress, which she never discarded. "The Horse Fair" was originally the property of the "merchant prince," the late A. T. Stewart, but was acquired by the Metropolitan Museum, where it now hangs, and is viewed daily by hundreds of visitors.

is a teamster, was bibulous and spent  
his money for whisky instead of buy-  
ing groceries. She said that he had  
only given her \$5 in five weeks. She  
gave her consent to placing a mort-  
gage on their home so that he could  
buy a horse to replace one which was  
stolen, and found that he was squan-  
dering the money in drink. After he  
had dissipated about \$45, she made him  
return the remainder. She worked  
until she got enough to make a fund  
sufficient to pay off the mortgage.

The daughter said that her father  
was cruel in his talk, and that he had  
physically abused his five children.  
She testified that she worked in a drug  
store laboratory. Part of her earnings  
went to aid in supporting the family  
and the remainder she used in making  
payments on the piano.

Schultz admitted that he was fond  
of his "nips," and that he had not  
worked for six weeks. He said that he  
had taken to his cups recently be-  
cause he was feeling bad over the  
loss of his horse.

"I never abused them," he assured  
the court, when asked as to how he  
treated his family. "My daughter  
played the piano late at night when  
I wanted to sleep, and all I did was  
to get up and have her turn the light  
so she could not see the music."

The magistrate endeavored to get  
Schultz to say that he was sorry on  
account of having treated his family  
wrongfully, apparently intending to  
postpone action in the case and re-  
fusing him the opportunity to make  
defendant insisted that he had done  
the best he could for his wife and  
children.

By his unable to furnish bail, and  
was taken to jail to await trial in the  
Superior Court.

ELABORATE.  
SERVICE WILL  
BE IMPRESSIVE.

LENGTHY PROGRAMME IS MADE  
UP FOR MEMORIAL.

Capacity of Auditorium Will Prob-  
ably Be Taxed by Crowd At-  
tending Meeting in Honor of the Late  
King Edward—Music and Addresses  
Will Be Features.

The capacity of the Auditorium  
probably will be taxed tomorrow night  
when the memorial services in honor  
of the late King Edward will be held.  
The programme was completed yester-  
day after a week of careful prepara-  
tion, and the services of song and ad-  
dress promises to be one of the  
most beautiful and impressive that  
has been conducted in this city. It is  
as follows:

Organ prelude, "Dead March in  
Saul," (Handel), Archibald W. Ses-  
sions; hymn, "Nearer, my God, to  
Thee," by the audience; address, "The  
Peacemaker," Rev. Dr. J. S. Thomp-  
son; Philharmonic Quartette, "Father  
Omnipotent," (Dudley Buck), Le Roy  
Japson, Sheldon Balmger, Harold Os-  
born, Dr. J. Lester Adams; address,  
"The King from an American's Point  
of View," Judge Wilbur; solo, "Abide  
Faith," (Liddle), Miss Alice G.  
Lohr; address, "The Man," Bishop  
Johnson; solo, "Calvary," Henry  
Daly; poem, "Edward, the King,"  
address, "Think I Have Done My  
Duty," Rev. Dr. E. A. Healy; organ  
recital, "Funeral March" and "Sera-  
phic Song," (Gouldman), Archibald W.  
Sessions; solo, "Ave Maria," (Gou-  
don), Mrs. Carolyn Von Benson; ad-  
dress, "The Lands of Our Birth and  
Adoption," Robert Wachtorn; quartet,  
"Crossing the Bar," (Parker); ad-  
dress, "The King as a Humanitarian,"  
Rabbi Hecht; organ recital,  
"Ave," (Greg), Archibald W. Ses-  
sions; national anthems, "God  
Save the King," "America," by the  
audience.

The floral decorations are in charge  
of the Daughters of the Empire,  
while Mr. Metcalf, of the Broadway  
Department Store, will arrange the flags  
and other emblems. A large picture  
of the King will occupy a conspicuous  
place on the stage.

The executive committee which has  
labored zealously in the preparations  
for the memorial service, comprises:  
C. White Mortimer, chairman; Rev.  
Mrs. J. D. Trew, J. Croswell Nelson,  
John Alton, Herbert Burdett, M. E.  
Owen, Dr. W. S. Philp, Charles T. Sut-  
ton, Thomas Pascoe, A. C. Way, D.  
Freeman, James Gunter, Dr. W.  
McArthur, W. W. Mines, Rev. A. J.  
Evans, Rev. W. MacCormack, C. C.

E. Cooper, E. E. Bassett, Rev. E. L.  
Howe, M. C. Melkjohn, J. R. Dwyer,  
Edmund Mitchell, Malcolm Macleod.

The programme committee is as fol-  
lows: F. Winstanley, chairman; Dr.  
Thomas Davidson, A. C. Way, Arthur  
Letts, John Alton, Herbert Burdett.

All of the basic vibratory principles of the beautiful grand  
shown above, together with a number of scientific improve-  
ments not found in any other piano, are found in upright form  
in the Frank B. Long Vertical-grand. We want to show you  
what the Scientific American and other high authorities say  
regarding our pianos, and at the same time we want you to  
hear its beautiful tone.

## BEAUTY SPOT. NATURE ASSISTS GARDEN FIESTA.

BRILLIANT AFFAIR WILL BE HELD  
TOMORROW.

Y.W.C.A. Workers Are Ready to  
Entertain Throng at Huntington  
Hall and They Have Some Unique  
and Interesting Features to Present.  
Tennis Tournament in Afternoon.

The spacious grounds at Huntington  
Hall, with its magnificent old trees, its  
evergreens, palms and shrubs, lighted  
with twenty-five hundred white and  
red electric and are lights, will be a  
most brilliant scene tomorrow evening  
when the Young Women's Christian  
Association presents its first garden  
fiesta. The lights reach every corner  
of the grounds and the natural group-  
ing of trees seems to make each spot  
suited to the programme.

The large circle in the center of the  
front, which will be used for the folk  
dances, will be illuminated by Japa-  
nese lanterns and by a brilliant white  
cluster immediately over the perform-  
ers. Just to the right, at the entrance,  
will be a waffle cooker, and just be-  
yond this, in a nook protected by lawn  
evergreen trees and a bit of hedge, will  
be a gypsy booth where fortunes will  
be told. The north side of the grounds  
furnish a natural stage over which  
three huge trees form a large dome.  
The space just back of the house and  
on the south side of the building will  
be used for refreshments. This will be  
ribboned off, the ice cream and cake  
section with pink and white and the  
waitresses will be dressed in pink and  
white; the cooking section in yellow  
and white and decorated in these  
colors. Welsh rarebit and coffee  
will be made in chafin dishes by mem-  
bers of the cooking class and sold by  
pupils.

In a quiet corner in the southeast  
part of the grounds under the shade  
of large trees, tea tables will be spread  
and decorated in the Japanese style. Mrs.  
H. W. Meilen will preside and will be  
assisted in serving by a number of  
young ladies in Japanese costume. A  
large rookery near by will be the abode  
of other gypsies and the faint light  
will make it a weird haunt. Near the re-  
freshment section a retreat will be shaded  
by spreading trees will be arranged as  
an association information booth.

WOMEN IN CHARGE.

Much credit is due to the Decorating  
Committee, with Mrs. Piles Pellogg  
as chairman, for the decorations of the  
grounds and the harmonious arrange-  
ment of the many and varied attrac-  
tions. Miss Grace Barnes, chairman of  
the Social Committee, has in charge  
the fortune-telling booths and company  
of visiting gypsies. The folk dances  
and all gymnastic work presented in  
that group is under the supervision of  
Miss Ella Stevens, physical director of  
the association. The series of dramati-  
zations in the afternoon, Miss Eliza-  
beth Yoder, teacher of expression, will  
direct and in the evening, Miss Camilla  
McConnel of the school of English will  
have charge.

"The Parliament of Women," a play  
dramatized and directed by Mrs. John  
W. Mitchell, and presented by the  
College Women's Club at an outdoor  
function two weeks ago, will be re-  
peated in the evening. The picturesque  
setting of this play and its charac-  
teristic Greek features make it es-  
pecially adapted to this kind of presen-  
tation. Those participating in the play  
are Elsie Ara Waggoner, Mabel Walsh,  
Ethel Williams, Evangeline Gray,  
Sarah McLean, Lucy Howell, Mrs.  
Birney Donnell, Jessie Moore, Bertha  
Oliver, Ella Rider, Edith Furrey, Lucy  
Robinson, Adele Myers, Lloyd Galpin  
and Maria Lopez.

The play proper will be followed by  
the Grecian dance "A Courtship Pan-  
tomime," under the direction of Miss  
Sarah McLean.

TENNIS TOURNAMENT.

The tennis tournament in the after-  
noon will be participated in by Miss  
Mary Brown and Miss Isabel Smith  
of Polytechnic High School, Miss  
Beatrice Bingham and Miss Irene Poy-  
zer of Los Angeles High, Miss Mar-  
garet Merrill and Miss Edith Osmond  
of Occidental and Mrs. Stierck and  
Miss Vile B. Moore of the Y.W.C.A.  
Miss Brown is well known in tennis  
circles, having played with the Butten  
sisters. Miss Osmond of Occidental  
holds the championship of the col-  
leges of Southern California, and the  
best players from the respective in-  
stitutions have been selected for this  
tournament.

The association has spared no pains  
in making the Garden Fiesta a splen-  
did social function, and by presenting  
some of its activities and reproducing  
some of the special accomplishments,  
may make the association of interest  
to still larger circles of the women of  
the city. A small admission is charged  
and only refreshments will be sold on  
the grounds.

A throng of visitors saw the exhibi-  
its at the association building yester-  
day, and many were eager to register  
for the Summer School, to open July  
6, continuing six weeks.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.  
SEE A RIVAL  
IN TRACTION.Strife Is Threatened in Board  
of Trade.Question of Transit Rises Into  
Prominence.Score of Elks Going to the  
Grand Lodge.

Office of The Times, No. 26 S. Raymond Ave., Pasadena, May 18.—Factional strife threatens to make the next annual meeting of the Board of Trade one of exceptional liveliness. It is doubtful if any similar event in the history of the organization has been the cause of so much interest among the membership as is being manifested now.

There are many rumors of "opposition tickets," although all the present officials are understood to be willing to step down and out without delay. President E. T. Off says two terms is enough for him, and his colleagues also declare that they are ready to doff their official regalia.

All these outward expressions would indicate that there is more harmony on hand than the organization knows what to do with, but, as a matter of fact, there is a lively rumormongering going on, and it may be fairly charged to the differences over the recent report of the committee on the Pasadena Rapid Transit Railroad Company, which appears that there is strong dissatisfaction over the non-reading of the committee's report at the annual banquet of the board last week. Some of the critics of the present administration profess to believe that this action was unjust, although this view of the matter is not generally held.

However, there has been enough discussion of the matter to result in the appearance of a circular letter, which is to be sent to every member of the board, requesting his attendance at the annual meeting. This letter is signed by George F. Cary, as chairman of the Committee of Five. It reads:

"The Committee of Five appointed by the Board of Trade for the purpose of bringing the facts in relation to the Pasadena Rapid Transit Railroad Company to the attention of the people of Pasadena has made its report.

"It is the wish of the committee that the fullest publicity be given the facts pertaining to this important matter, and you are urged to bring to the annual meeting of members of the Board of Trade, to be held at the Hotel Maryland next Monday evening, May 21, at 8 o'clock, at which time it has been promised that the report will be taken up for discussion.

"The committee's recommendation that the report be considered at the annual banquet could not be adopted, owing to the length of the programme prepared before the report was presented to President Off.

"The committee trusts that it can rely upon your being present, and after a thorough inspection, give the matter the benefit of your best judgment as to what action should be taken by the Board of Trade.

"The fact that President Off of the board is also president of the Pacific Electric Express is regarded as of peculiar interest at this time, as the Rapid Transit Company proposes to engage in this same business, once it gets its line in operation.

There are many other important matters to receive attention, including the Carmichael Garden project, the West Colorado street bridge, the Monticello proposition and the suggested consolidation of the water companies.

WOODWARD NARRATIVES.  
In the presence of only immediate relatives and intimate friends, the wedding of Miss Nellie A. Ward and Alfred H. Woods was solemnized last evening at the residence of Mrs. Walter S. Melick at No. 850 North Raymond avenue. The ceremony was performed by Rev. E. J. Cronin, pastor of the First Universalist Church.

The bride was attended by Miss Williamson of Los Angeles, and the best man was Charles E. Ward of Phoenix, Ariz., brother of the bride. After a honeymoon trip through Southern California and Old Mexico, Mr. and Mrs. Woods will reside at Napa, where the groom will engage in the mill business. Mr. Woods, a former resident of Pasadena.

ELKS GOING EAST.  
A score or more Pasadena Elks will attend the grand lodge of the P. O. E. which will open in Detroit July 2 next. T. D. Nestor, Past Exalted Ruler of the local lodge, is the regularly elected delegate, but he will be accompanied by his fraternal brothers who want to participate in the accompanying festivities. Among those who are expected to make the trip are Mr. and Mrs. S. McDowell, Mr. and Mrs. Harry Geoghegan, Mr. and Mrs. Henry Monahan, Mr. and Mrs. C. Austin, Mr. and Mrs. E. R. Bralier, Dr. and Mrs. Charles H. Ward, Mr. and Mrs. James Rogers, Mr. and Mrs. George H. Smith, and Mr. and Mrs. Arthur W. Smith.

SON OF FAMOUS AUTHOR.  
Although for several years a resident of Pasadena, the fact that Edward U. Smith, manager of a drug store at East Hartford, Conn., is the son of the late S. J. Smith, author of the national anthem, "America," had been kept a profound secret so far as the public was concerned until a few days ago, when it was given out through the publication of a list of distinguished American composers. The list appeared on a calendar which the Pasadena man had sent East for, and the presence of his father's name among the notable names became known, and then the secret was out.

REDONDO BEACH BOOSTERS.  
The Redondo Beach "Boosters" were here long enough yesterday to let everybody know that they were very much alive, and that Redondo Beach is very much on the map. Following street parades and a well-attended library park, where their musicians entertained the natives with an open-air concert. They remained here about three hours, departing shortly after 3 o'clock for Pomona.

FAMOUS TREE OFFSPRING.  
There has been presented to Throop Polytechnic Institute a fine oak tree, which its donor, Dr. George E. Abbott, vouchers for as a lineal descendant of the famous Charter Oak tree of Hartford, Conn., which is regarded as perhaps the most celebrated oak tree in the world. Dr. Abbott declares that it is the only broad-leaved oak west of the Rockies. The sapling (it is only five feet high at present) will be

planted in Throop's campus June 8, with appropriate ceremonies.

Mayor Earley estimated last evening that Pasadena will expend about \$100,000 on the making of street improvements. No one section of the city will get the benefit of this important work, but it will be general. This estimate does not include the \$150,000 to be spent in the construction of the storm-water drain in the main part of town, one extension being from Vernon avenue, at Walnut to Broadway, and the other from Vernon, at Eleventh drive to Broadway. Another evidence of the vast improvement work under way or contemplated here is shown in the fact that twenty-five building permits have been taken out at the building inspector's office in the past two days, making the total valuation of new buildings started this month close to \$150,000.

## PASADENA PASSINGS.

Miss Ethel Pegg, daughter of Mr. and Mrs. Robert Pegg of No. 25 South Mentor avenue, died Tuesday night at the family home, aged 23.

Funeral services were held yesterday afternoon in the chapel of Reynolds & Van Nuy, over the remains of the late William J. Oakman, aged 68, who died Sunday in San Diego, and was buried in a local cemetery.

Anna E. Sherwood of No. 464 North Raymond avenue, received news yesterday of the death in Pittsburgh, Pa., of her son, John W. Sherwood, who had resided in Pasadena for more than twelve years.

Hereafter the Western Union Telephone Company will keep its Pasadena office open until midnight every night, including Sunday.

Charles W. Ward has accepted a position as assistant manager of the La Crosse Mining Company at Handburg, Mo.

W. L. Hubbard, a former Chicago art and dramatic critic, will speak in Throop chapel Friday morning at 9:45 o'clock.

John F. Godfrey, woman's relief corps will Saturday afternoon next join with the Shakespeare Club in memorial service for the late John F. Godfrey, who died at the Shakespeare Clubhouse.

Bail in the sum of \$10 in each case, was forfeited yesterday by Smith, H. Cox, C. W. Penwell and J. E. Abbott, all of whom were arrested recently in connection with the case of the late John F. Godfrey, who died at the Shakespeare Clubhouse.

W. F. Anderson, who was arrested last Tuesday for disturbing the peace, was given a suspended sentence of thirty days by Justice Klamroth.

Principal C. S. Thompson of the Washington school has announced himself as a candidate for the position of superintendent of schools of this county.

Artists' materials at Wardworth's, Hotel Maryland and Maryland bungalows will remain open all summer.

Attractive gifts for wedding and card parties. Wigwam, 61 N. Euclid, Hotel Vista del Arroyo, New annex, Bungalows, Unexceptionable environment. Pasadena.

## CLEANLINESS: HOW?

South Pasadena School Trustees May Remove Accumulated Dirt by Lack of Air.

SOUTH PASADENA, May 18.—The school trustees are considering the question of installing a vacuum cleaner in the new Marengo-avenue classroom building, which is to be completed and ready for occupancy at the commencement of the fall term.

N. L. Ledgerwood, F. E. Dickinson and M. E. Briggs are at Santa Cruz attending the convention of the United States and Mexico Club, which is being held at the Hotel Santa Cruz.

A union meeting was held in the Presbyterian church this evening, at which Rev. E. J. Cronin, pastor of the church, delivered an address on "The Social Evil; Its Cause and Cure."

A reception was given to more than 100 new members, guests in the church parlors last evening.

## MORE STEAMERS ASSURED.

San Francisco and Portland Company to Extend Its Service to Port of San Pedro.

SAN PEDRO, May 18.—General manager R. P. Schwerdt of the San Francisco and Portland Steamship Company, has made definite announcement that the company will in a few weeks extend its service to San Pedro, the new steamers Bear and Beaver, recently acquired from New York, and the Rose City, operating on the long run of 1000 miles. The Bear, under command of Capt. N. N. Webster, is well known at this port, arrived at San Francisco on Monday on her initial trip from Portland. The Beaver, commanded by Captain E. J. Hughes, is a new liner that has been built at the company's yard in San Francisco. The company is assured the new line will be just as popular as the Los Angeles line, which has been operating for some time.

The Beaver is to have oil-burning apparatus installed at San Francisco. The Bear is 326 feet long, 47.5 feet beam and 34 feet depth of hold. She is of 279 tons net register, 400 tons gross and has a capacity of handling more than 4000 tons of general freight on a draft of 19.5 feet. She has accommodations for 275 first-class and 150 second-class passengers. She can easily be fitted up with accommodations for 250 steerage passengers. She carries a crew of sixty-one. The officers of the Beaver are: Master, William Kistner, first officer, A. T. Hunter, second officer, Z. Z. Zivic, third officer, Omar Baarsdahl, chief engineer, S. R. Paul, first assistant, A. Boyer, second assistant, D. Hughes, third assistant, G. Williamson, steward, Edward Henderson.

The Bear is also fully equipped. She was finished only last January at the Newport News shipyard, and is 380 feet long, 47.5 feet beam and 34 feet depth of hold. Value of Salt.  
Few persons understand the therapeutic value of salt. A little salt in one's drinking water is "good medicine." Salt applications to the skin are wonderfully soothing and whole.

is out of the city, and his return is

awaited for an opinion as to which has the higher authority, the police or Civil Service Commission. The proposed caplain continues to report daily for duty to establish his claim for salary due, which will be made through a lawsuit. He personally conducts his own office, a special invitation to attend the banquet to be tendered by Long Beach citizens to Edison officials next week.

The annual convention of the homeopathic physicians of the United States will not be held at Long Beach in July as was intended, the management of the Chamber of Commerce, however, will arrange for the entertainment of the physicians here on Saturday, July 16, and will also entertain the ladies of the association earlier in the week with a boat ride and luncheon.

Long Beach, May 18.—The annual summer camp of the boys of the Y. M. C. A. will be held this year at Silverado Canyon starting June 27. About forty boys will go in charge of Edwin A. Hitchcock, died last night at his home on Cerritos avenue. He was a native of Connecticut and 19 years of age.

TODDLERS TO BOSS.  
LET YOUNGSTERS  
RULE ON FOURTH.PLAN PROPOSED BY CITIZENS OF  
MONROVIA.

As Compensation for Loss of Fire-works, Prohibited by City Ordinance, It Is Proposed to Permit the Juveniles to Decide How They Wish to Celebrate.

MONROVIA, May 18.—Social and civic organizations are in league to compensate the juvenile population for the loss of Fourth of July fireworks prohibited by the City Trustees. The action of the authorities is thoroughly approved but sentiment and patriotism demand that the anniversary be commemorated.

In a joint committee meeting representing school trustees, the Board of Trade, the Merchants' Association, the Daughters of the American Revolution, the Granite, Athletic and Saturday Afternoon clubs, it was voted last night to let the young folks decide how they wish to celebrate. Tentative suggestions are a parade in the morning and a "spangal gymkhana" or something similar in the afternoon, details to be worked out by the youngsters. The programme for the evening has not been outlined.

Within reasonable limits, "Young America," will be given a free hand, his elders being content to serve in the ranks. The proposals of the joint committee will be submitted to an assembly of school pupils and such practicable alterations of the programme as may be suggested by the youngsters in an appropriate observance is keen and mindful of the "days gone by" when a Fourth without fireworks was like a drought without rain, they are determined to make the deprivation of the local youths as endurable as possible.

Committees appointed to cooperate with the juveniles are: Parade, Mrs. G. C. Crow, E. J. Cronin, F. N. Hawes, gymkhana, W. F. Dunn, Mrs. J. N. Petrie, E. J. Cronin, evening, Mrs. W. F. Marshall, Henry W. Smith, A. C. Chase, finance, Fred Gerlich, W. Goodell, J. C. Taylor.

SIX MILES OF PIPE.  
The contract for nearly six miles of pressure pipe in Arcadia Acres south of the Monrovia city limits has been let to the R. H. Davidson Company. The tract is irrigated by a well supply of 100 inches and the pipe is for distribution of water to small subdivisions. The contract calls for 5000 feet of six-inch main, 20,000 feet of six-inch lateral, and 20,000 feet of four and two-inch laterals.

The land was formerly included in the holdings of the late E. J. Baldwin, a syndicate purchaser has disposed of nearly all of it in parcels of from two-and-one-half to twenty acres. It is improved walnut land but the majority of ranches will be devoted at first to vegetables and alfalfa as yielding a quicker return. Work on the water system will be rushed and home building throughout the tract will soon begin.

Friction between factions has been stirred up here in this city on account of a table liquor license which was refused to the La Vista Grande Hotel, closed on that account by the proprietor, A. E. Cronin.

The factions arrayed in the fight are the one hand citizens who are with Mr. Cronin, and on the other the city trustees, a number of church workers and other citizens.

The citizens who are supporting Mr. Cronin are of the opinion that the hotel properly in closing his house at least in so far as traveling people are concerned particularly who drive out in automobiles desire liquid refreshments with their meals. Without being able to serve wine, the trade at the hotel is being lost to the city.

The hotel proprietor says that it has finally become a losing proposition. He is of the opinion that the city trustees are of the opinion that it is impossible to run a hotel without liquor, and since there is not a single place in Monrovia, where a traveling party can get a drink, they are determined to establish a precedent and allow the hotel man the advantage he would have in having the liquor.

If the first meeting of the hotel proprietors and eating-houses will also demand licenses, and it will not be fair to refuse them.

The citizens who favor granting a table liquor license declare that this kind of license is granted in a number of places where prohibition is in force. They point to the Virginia at Long Beach, the various large hotels of Pasadena which cater to the tourist trade, the hotels of Redlands and elsewhere. They declare that there is a strict prohibition, but where table licenses have been granted in order to allow the tourists to secure whatever they desire in the way of refreshments when at meals.</

NEW FRIEND UPON OLD SOD.

SUIT DRAWS WITNESSES FROM TWO CONTINENTS.

Battalion Fire Chief from New York and Niece from Paris, France, Summoned to Testify in Case Involving Half-Million-Dollar Estate—Tip About Smuggling Goes Astray.

SAN DIEGO, May 18.—Hearing of testimony in the contest over division of the McGurk estate, involving \$500,000, brings witnesses from two continents. The case was called Monday before Judge Guy in Department Two of the Superior Court. It seems likely to last through two weeks more.

Among witnesses here are Michael Farren of Philadelphia, who testifies that he was a boyhood friend of McGurk, and that they were raised together in Ireland. He was placed on the stand by attorneys for the plaintiffs, Michael and Elizabeth McGurk, brother and half-sister of the late Edward McGurk.

Other witnesses to take the stand are Peter Sloane, battalion chief of the New York City fire department, and Edward McGurk, a niece of Edward McGurk, who came here from Paris, France.

"TIP" GOES ASTRAY. Following a "tip" that a large quantity of smuggled opium was aboard the steamer Placidia, which arrived yesterday from Salina Cruz, customs officers made a vigorous search of the vessel, but were unsuccessful in locating the alleged contraband drug. Several Chinese suspects were placed under surveillance without results.

WORK OLD SWINDLE. Alleged swindlers worked an old fraud when they passed a Confederate note for \$200 to a young woman clerk in a local confectionery store. Two men entered while the woman was alone. One kept watch on the doorway while the other ordered 50 cents' worth of pastry. The \$200 bill was given to her in payment. She responded with \$150 in change. The men quickly disappeared. When the proprietor counted up the contents of the cash register he ran across the spurious bill. The woman clerk was able to give the police a good description of the swindlers, but so far they have not been apprehended.

KIDNAP OWN CHILD. Desmond was arrested in San Francisco, and last night he was brought here in charge of Constable Jackson. Justice Smithwick fixed the preliminary hearing for next Monday; and his bond at \$500. E. Severance and F. S. Trickey went on Desmond's bond. As the justice was making out the bond, Desmond suddenly broke over in a faint, and the magistrate and constable poured water on him to revive him.

This morning, arm in arm, Desmond and his wife appeared at the justice's court, asking that the charge against Desmond be dismissed. Desmond said he would sign an agreement and give a bond to support his wife. Deputy District Attorney Finley replied: "Mrs. Desmond, this court is not in the business of hunting up lost husbands and then turning them loose. You have started this and we are going to finish it. However, if the Superior Court accepts your agreement, the prosecution will probably be satisfied."

COWBOY SHOWMAN GUILTY. Dick Stanley, a cowboy showman, was found guilty of simple assault upon Walter Kogler of Orange. The verdict was returned in the Superior Court last night and Stanley was taken to Los Angeles for treatment. Stanley was proprietor of a show that was at Orange on March 21. He was accused of giving a signal that caused a disturbance with boys. Kogler declared he had nothing to do with the disturbance. Stanley lives at Santa Monica.

Dr. Stanley P. Black has reported that the test made by him of the head of the cat that bit J. F. Kinley here on Monday shows that the cat had rabies. Kinley will probably be taken to Los Angeles for treatment.

SEEKS TO ENFORCE. Suit was begun in the Superior Court today by Fred Rimpus of Anaheim against Mrs. N. H. Mitchell of Hollywood to enforce a contract for the sale of property at Anaheim. The complaint states that Mrs. Mitchell agreed to take \$1200 for the property and to execute a deed therefor. The money was paid.

Nagai, acting Japanese Consul at San Francisco, was entertained with a reception, automobile ride and luncheon today by the Merchants' and Manufacturers' Association and Chamber of Commerce. Nagai has been at Rimpus looking into the conditions of Japanese upon the farm here.

Marriage license: Edward S. Chase, 24, and Vera Blackledge, 23, both of Los Angeles; Frank R. Holmes, 24, and Edith Hubbard, 25, both of Tuleton; Percy L. Heister, 21, and Ivel H. Harding, 18, both of Los Angeles.

SAN JACINTO. May 18.—Charles Chambers says that the report printed to the effect that he furnished bond for Ed Lamb, charged with conducting a blind pig, is incorrect and that he did not go on Lamb's bond.

new shapes. \$1.95

#### Lingerie Waists for \$2

More of the waists the women went wild over Monday. Made  
of fine lingerie materials, trimmed with beautiful laces and em-  
broideries. Many models and some entirely original ideas in de-  
sign and development. These waists are so well made that they'll  
bear repeated launderings without detriment to their daintiness!

#### Table Linen Specials

In a new shipment of table linens we find an over-abundance in certain  
lines. Four are represented here at prices which will convince the  
wife of the advisability of laying in a supply of extras. Qualities  
unquestioned.

#### Fresh Undermuslins

Many new garments added to the big May Sale—  
garments, the quality and trimming of which are  
a wonder to all who see them. The prices make  
it positively nonsensical for you to make your  
underwear when you can buy it at these figures.

#### At \$1.00 Women's gowns, combination

suits, drawers, corset covers,  
chemise and a lot of extra sizes  
announced that, although he is a mem-  
ber of the Good Roads Advisory Com-  
mittee, he did not make any investiga-  
tion of highway affairs and did not  
sign the adverse report.

Plummer explained in a letter to the  
county officials that he believes the  
investigation should be carried on only  
by competent engineers and that busi-  
ness men on the committee would be  
only "deadwood."

Only one of the other persons who  
were appointed has replied to the no-
